CONTRIBUTO	CONTRIBUTO	VALORE	NOTE
Contributo per la gestione del servizio di raccolta dei rifiuti solidi urbani (RSU) per la frazione di 1.000 abitanti	1.000	(10)	10.000 x 0,01 = 1.000. Esigibilità 1.000
Contributo per la gestione del servizio di raccolta dei rifiuti solidi urbani (RSU) per la frazione di 2.000 abitanti	2.000	(11)	20.000 x 0,01 = 2.000. Esigibilità 2.000
Contributo per la gestione del servizio di raccolta dei rifiuti solidi urbani (RSU) per la frazione di 3.000 abitanti	3.000	(12)	30.000 x 0,01 = 3.000. Esigibilità 3.000
Contributo per la gestione del servizio di raccolta dei rifiuti solidi urbani (RSU) per la frazione di 4.000 abitanti	4.000	(13)	40.000 x 0,01 = 4.000. Esigibilità 4.000
Contributo per la gestione del servizio di raccolta dei rifiuti solidi urbani (RSU) per la frazione di 5.000 abitanti	5.000	(14)	50.000 x 0,01 = 5.000. Esigibilità 5.000
Contributo per la gestione del servizio di raccolta dei rifiuti solidi urbani (RSU) per la frazione di 6.000 abitanti	6.000	(15)	60.000 x 0,01 = 6.000. Esigibilità 6.000
Contributo per la gestione del servizio di raccolta dei rifiuti solidi urbani (RSU) per la frazione di 7.000 abitanti	7.000	(16)	70.000 x 0,01 = 7.000. Esigibilità 7.000
Contributo per la gestione del servizio di raccolta dei rifiuti solidi urbani (RSU) per la frazione di 8.000 abitanti	8.000	(17)	80.000 x 0,01 = 8.000. Esigibilità 8.000
Contributo per la gestione del servizio di raccolta dei rifiuti solidi urbani (RSU) per la frazione di 9.000 abitanti	9.000	(18)	90.000 x 0,01 = 9.000. Esigibilità 9.000
Contributo per la gestione del servizio di raccolta dei rifiuti solidi urbani (RSU) per la frazione di 10.000 abitanti	10.000	(19)	1.000.000 x 0,01 = 10.000. Esigibilità 10.000

OPERATING STRATEGY

1. `NUMBER` - table 1, `NUMBER` - function that is used to convert an array of numbers.
2. `NUMBER` - table 1, `NUMBER` - function that is used to convert an array of numbers.
3. `NUMBER` - table 1, `NUMBER` - function that is used to convert an array of numbers.
4. `NUMBER` - table 1, `NUMBER` - function that is used to convert an array of numbers.
5. `NUMBER` - table 1, `NUMBER` - function that is used to convert an array of numbers.
6. `NUMBER` - table 1, `NUMBER` - function that is used to convert an array of numbers.
7. `NUMBER` - table 1, `NUMBER` - function that is used to convert an array of numbers.
8. `NUMBER` - table 1, `NUMBER` - function that is used to convert an array of numbers.
9. `NUMBER` - table 1, `NUMBER` - function that is used to convert an array of numbers.
10. `NUMBER` - table 1, `NUMBER` - function that is used to convert an array of numbers.
