UNDERGROUND PLAN 1:16,100 1:17A

The schematic diagram illustrates the experimental setup within a rectangular arena. At the top, there are three circular elements labeled A, B, and C. Below them, a horizontal bar contains several components: a camera icon, a sensor icon, and a central control unit labeled 'PC'. To the left of the PC, there's a section labeled 'A' containing a camera icon and a sensor icon. Below this, a red line indicates a path or boundary. In the center, there's a blue rectangular area labeled 'B' with a sensor icon. To its right is a yellow rectangular area labeled 'C' with a sensor icon. Further right is a green rectangular area labeled 'D' with a sensor icon. On the far right, there's a white rectangular area labeled 'E' with a sensor icon. At the bottom right corner, there's a circular element labeled 'F'. Various other labels and symbols are present throughout the diagram, indicating different parts of the experimental setup.
